DETAILED ACTION

Allowable Subject Matter

Claims 2-31 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. Although the prior art teaches an ophthalmic lens and a method for making such a lens as claimed in independent claims 2 and 18, the prior art fails to teach an ophthalmic lens worn on the surface of the eye having the structure a claimed in independent claim 2 nor does it teach the method of making the eye contact ophthalmic lens having the structure as claimed in independent claim 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Terminal Disclaimer

The terminal disclaimer filed on August 1, 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on Application Number 10/980,589 has been reviewed and is accepted. The terminal disclaimer has been recorded.
